# Student Ambassadors

## Bruno Marafini

I am Bruno, currently based in Berlin for my Master Internship and Thesis, enrolled as an EIT Digital Master Student in CyberSecurity (CSE) - I am fascinated about everything related to new technologies and security aspects related to them. On the other side, I am a Dj and Music Producer, in love with everything related to music.

### Message for you

I think that with EIT Digital my professional career completely changed - lots of new opportunities every month (hackathons, events, etc.), the experience of living and studying in two different countries during your master's programme. My network definitely increased, and I have to say, both professionally and musically speaking - I met a lot of people from all over the world with whom I shared a lot of experiences and knowledge.

**I really recommend this Master to all of you, future EIT Digital Master Students!**

## Cristina Ríos

I am an industrial engineer born and raised in Chile, with spanish origins as well. I love to learn about new technologies, to travel and to meet people from all over the world.

### Message for you

Congrats! This is just the beginning of your journey with EIT Digital. Tech skills, entrepreneurship, innovation, mobility and networking will be part of your DNA. You are now our family so don't hesitate to contact if you have questions.

## Yuan Wang - Jane

I am Jane, from China. I am currently a second-year master student in Data Science. I believe my experience makes me who I am and I would love to explore more in the future.

### Message for you

EIT Digital is the Coolest program ever. Studying as part of EIT Digital, you will not only get education from two different universities, but know talented people in this community and have a wider view of Europe and the world.

## Alessandro Amici

I am a tech, sports and social life passionate. Right now, I am working in GIM robotics to complete my Internship and Master Thesis.

### Message for you

Wow! You made it! I am glad, you are not going to regret it! Enjoy your days as an EIT Digital student and try to make the most out of it! And remember: you are awesome! :D

## Ruxandra Osman

I am Ruxandra Osman, I have done my bachelor in Computer Science in Romania and I am passionate about designing and implementing new digital ideas.

### Message for you

I would like to tell the new students that these two years of master school were a totally new and great experience for me in terms of learning, travelling and meeting people.
